

## Don Diego Del Mar

Since their conversion to Christianity in the time of the great Cid Don Diego del Mar's family have raised their blades in the name of the crown of Castile. Despite this long service there are those that still mistrust his family for its Moorish ancestry. However none can dispute the skill of him and his Escalodores. Many a fortress in the Reconquista fell with Diego's men streaming up their scaling ladders and over the walls. Now at the behest of the king he fights a much subtler war, a scalpel to remove "problems" in the Eternal City that threaten Castilian interests.

# Force of Virtue

## Don Diego Del Mar

Diego Del Mar's warband is small and has strong defensive capabilities. Due to the special rules of the Escaladores and the high stock of Virtue attached to Diego it is unlikely you will be burnt out of Virtue even if you put Diego into combat. You can use your javaleneers for harassing the enemy, as a reserve and for hunting objectives. Careful as the warband lacks armour penetration.
